

8/25/21 Chief's Report

- MMWMC group is looking at coming up with common standards for roadway survival improvements.
- AP Triton study revised draft should be out in the next week or two.
- CWPP-Ember Alliance hasn't completed their draft proposal to us to review yet. I have been learning a lot through MMWMC about things we are going to want to include (standardized definitions, polygon/neighborhood merging, etc).
- Generators both to be serviced and tested, will talk with the service company about remote monitoring. Testing will test capacity and assess if the generator continues to meet peak demands.

Calls for July:

- 1-Animal Problem
- 3-Dispatched and cancelled en route
- 6-Medicals
- 2-False alarm
- 4-MVAs
- 1-UTL
- 1-Steaming Radiator
