

Chief's Report
March 27, 2024

-Change in Medical Director. Dr. Tsipis has moved to Roanoke and Pat and I interviewed both his recommended replacement at Swedish Medical Center and we spoke with Common Spirit (formerly Centura) Pre-Hospital Services and elected to go with Common Spirit. Dr. Sam Smith is our new Medical Director.

-We weathered the storm, but some comms issues came up with the generator. Thank you Scott for your help getting us up and running quickly.

-Most of the rookies are doing well and are engaged in our Wildland Fire class.

-Generator-I still don't have the information from Xcel for getting the second bid on the generator. The bid we did get was explained more thoroughly and makes a lot of sense. IF we include the East bay's full power, that includes two high demand compressors. With everything else, we would need a 32kw or larger generator, which would put us into a water cooled unit, which would put us over \$40,000. We could do a 26kw unit that would do everything we have now, plus all the furnaces with plenty of margin. That option is \$14k.

March calls- 14

5 – Medicals

5 – MVAs

2-False Alarm

1 – Rubbish Fire

1 – Lift Assist
